ŠKODA

Effective February 2021

ATTENTION PLEASE

Confidence isn't just for public speaking. It's an attitude that steers you through life. And if you weren't born with it, you can always borrow it from the ŠKODA FABIA. With its sharp, angular lines it's way too bold to be shy. But its confidence isn't just locked in its looks. Being a thoroughbred ŠKODA means it comes with thoughtful Simply Clever details that add comfort to confidence.

The FABIA is yet another example of our philosophy of making beautifully designed cars that are as much a joy to drive now as they were back when we started.

That's Simply Clever. That's ŠKODA.

ALLOY WHEELS

YOUR FABIA. YOUR WAY. Few additions on a car convey the driver's personality more than the wheels. Introvert or extrovert? Sports mad or strictly business? Whatever your style, these alloy wheels are a perfect match.

PRACTICAL AND VARIABLE

The intelligent design of these child seats allows your child to be seated both in the back of the car, but also on the front passenger's seat where you can keep a closer eye on them. The seats also cleverly adapt to the ever-changing size of your children, making them a great long-term investment.

PERFECTLY VERIFIED

All our child seats comply with European safety regulations (EHK 44.04) and have been rigorously tested. Their high quality and safety is further highlighted by their excellent results in the Euro NCAP impact test, together with successful non-combustibility testing, harmful substance ratings and cover quality.

A tow bar can significantly increase the utility value and luggage capacity of your FABIA as it can carry a 2,100 kg trailer with brakes or a 750 kg trailer without brakes. ŠKODA Genuine tow bars have undergone many rigorous toughness, corrosion resistance and stress tests, while the wiring has passed an electromagnetic compatibility test, ensuring it complies with all international regulations. The tow bar can be locked, securing it against theft, while its simple automatic mounting/dismounting mechanism does not require any tools, making it very easy to comply with the legal obligation to remove it when it's not being used. After removal, the mounting hole is protected by a cover of the same colour as your FABIA, making sure it stays as stylish with or without the tow bar.
